Proposed Consent Decree, Clean Water Act and Administrative Procedure Act Claims

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Environmental Protection Agency (EPA) Administrator's March 18, 2022, memorandum regarding "Consent Decrees and Settlement Agreements to resolve Environmental Claims Against the Agency," notice is hereby given of a proposed consent decree in *Cape Fear River Watch et al., v. United States Environmental Protection Agency*, No. 1:22-cv-03809 (D. D.C.). On December 23, 2022, Plaintiffs Cape Fear River Watch, Rural Empowerment Association for Community Help, Waterkeepers Chesapeake, Waterkeeper Alliance, Humane Society of the United States, Food & Water Watch, Environment America, Comite Civico del Valle, Center for Biological Diversity, and Animal Legal Defense Fund (collectively, "Plaintiffs") filed a complaint against the EPA alleging that the Agency had failed to perform duties mandated by the Clean Water Act ("CWA") to revise the effluent limitations guidelines ("ELGs") and promulgate pretreatment standards for the Meat and Poultry Products ("MPP") industrial category, after EPA had determined that such revised ELGs and standards were appropriate. EPA seeks public input on a proposed consent decree prior to its final decision-making with regard to potential settlement of the litigation.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Consent Decree

In September 2021 (86 FR 51155, September 14, 2021), EPA published its preliminary effluent guidelines plan 15 and solicited comment on it, pursuant to CWA section 304(m). For the Meat and Poultry Products industrial category, the preliminary plan indicated that revision of the ELG and promulgation of pretreatment standards may be appropriate, and that EPA was initiating a rulemaking for this category.

In December 2022, Plaintiffs filed a complaint alleging that EPA’s failure to revise ELGs and to promulgate pretreatment standards for the MPP category constituted failures to act by statutory deadlines in violation of the CWA and Administrative Procedures Act (“APA”).

Although EPA was in the process of conducting the MPP rulemaking, EPA had not publicly announced any specific timeline for completion. The parties initiated settlement discussions, which ultimately produced the proposed consent decree. Under the consent decree, EPA would have obligations to sign a notice of proposed rulemaking by December 13, 2023, and to sign a decision taking final action by August 31, 2025. The consent decree’s schedule is based on EPA’s projected timeline for completing the rulemaking. These deadlines may be extended by the court only upon written finding of good cause.

For a period of thirty (30) days following the date of publication of this notice, EPA will accept written comments relating to the proposed consent decree from persons who are not

parties to the litigation. EPA also may hold a public hearing on whether to enter into the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments received disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the CWA or APA.
